

Fellowship Care & Support Team  
Short-term Support Services

The Fellowship Care & Support Team is expanding its pastoral services to provide short-term help for our members. This would include transportation, meals, pet walking, yard work, etc. Although we cannot offer these services over a long period of time, we are hoping to help people who, for example, are returning home from the hospital, those recovering from an accident.

We are asking for a one-year commitment to provide these services to our members. Please indicate below what you are willing to provide. Your commitment will be completed in June of next year.
